## 1 Introduction

- 1.1 European Union ("EU") Mobile network operators shall meet all reasonable requests for wholesale roaming access according to Article 3 of the EU Roaming Regulation. It is for each individual mobile network operator to determine what constitutes a reasonable request for wholesale roaming.
- 1.2 Subject to Article 3 of the EU Roaming Regulation, the Parties shall enter into this unilateral Agreement for International Roaming for the temporary provision of Services by **Slovak Telekom** in order to enable Roaming Customers of <B> to gain access to mobile telecommunications services in the geographic areas where **Slovak Telekom** operates a PMN.
- 1.3 The Annexes, including the Overview of the Annex Structure, constitute an integral part of the Agreement. In case of discrepancy between different parts of the Agreement the following order of interpretation shall be applied:
  1. the main body of this Agreement; and
  2. the Annexes
- 1.4 In case of additional requirements, exceptions and/or contradictions between the Agreement and any Technical Specifications or GSM Association Permanent Reference Documents, the provisions of the Agreement shall prevail.
- 1.5 Subject to applicable laws, the Parties agree to be bound by GSMA Permanent Reference documents relevant to International Roaming provided by **Slovak Telekom** from time to time, for example:
  1. GSMA PRDs related to Quality of Service;
  2. GSMA PRDs related to Fraud Detection; and
  3. GSMA PRDs relating to Billing between the Parties including Invoicing and Settlement.
- 1.6 The Parties agree that the sole purpose of the Agreement is the provision of regulated international roaming access to Roaming Customers of <B> on **Slovak Telekom**'s mobile network in accordance with the EU Roaming Regulation. The Parties acknowledge that the wholesale roaming access as provided to <B> under this Agreement is therefore solely intended to enable Roaming Customers of <B> to use mobile communication services while temporarily travelling in **Slovak Telekom**'s licensed area. The wholesale roaming access as set forth under this Agreement is not intended to substitute domestic wholesale offerings for the provision of domestic services on **Slovak Telekom**'s network. It is further not intended to provide services to Customers of <B> that are not resident in or do not have stable links within the meaning of Art. 2 para. 2 lit a) Regulation (EU) 2016/2286 to the member state of <B>. In particular this Agreement is not intended to provide non-EU/EEA Roaming Customers with roaming services.

Any use of wholesale roaming access for purposes other than provision of regulated roaming services to <B>'s Roaming Customers while they are periodically travelling within the Union as described in the first subparagraph - such as but not limited to permanent or predominant and/or anomalous or abusive usage in **Slovak Telekom**'s home country - shall be allowed only subject to prior written approval of **Slovak Telekom**.

## Direct Wholesale Roaming Access Agreement

To meet the obligations listed above, <B> has implemented a suitable mechanism to ensure that the Services are only used to provide Regulated Roaming Services to Roaming Customers.

- 1.7 The Parties acknowledge that Articles 1.5 and 1.6 are material to the Agreement. Therefore, <B>, guarantees to comply with these Articles during the term of this Agreement and will fully indemnify Slovak Telekom for all damages incurred through breach of these Articles. Article 16.4 applies accordingly.

In case of such breach **Slovak Telekom** also reserves the right to take necessary measures accordingly pursuant to applicable EU Roaming Regulation which may include, but are not limited to, termination of the Agreement.

## 2 Starting Date and Condition Precedent

- 2.1 The actual commercial starting date for Direct Wholesale Roaming Access shall be the date as agreed by both Parties in written form after successful completion of all necessary network and billing test procedures.

### 2.2

The validity of this Agreement is subject the condition precedent that an independent authorised expert to be appointed by **Slovak Telekom** has confirmed that <B> has implemented a suitable mechanism to ensure that the Services are only used to provide Regulated Roaming Services to Roaming Customers. For this purpose, a suitable mechanism is for example that <B> has implemented a control system that allows <B> to determine that each of <B>'s customers is either resident in or has established a stable link within the meaning of Art. 2 para. 2 lit a) Regulation (EU) 2016/2286 in a geographical area of the Member State of <B> and which enables <B> to prevent any of <B>'s customers who are not Roaming Customers from using the Services provided by **Slovak Telekom** under this Agreement.

In case the findings of the expert do not confirm the existence of such suitable mechanism, <B> shall bear the cost of the audit.

During the term of this Agreement **Slovak Telekom** may at any time and without further notice conduct additional audits in order to confirm that such mechanism is still implemented and suitable to ensure that the Services are only used to provide Regulated Roaming Services to Roaming Customers..

In case the findings of the expert do not confirm the existence of such suitable mechanism, (i) Article 21.1 No. 2 applies accordingly and (ii) <B> shall bear the cost of the audit.

In the event that **Slovak Telekom** determines it is no longer in possession of the <B> Test SIM and/or USIM cards, **Slovak Telekom** must immediately notify the <B> in written form and request that the missing card(s) be deactivated. Once sufficient notification has been delivered to the <B>, the liability of **Slovak Telekom** ceases for all further usage on the missing cards(s) which occurs beyond the date of notification. If an MS attempts to register or re-register and cannot be successfully authenticated due to the network malfunction, calls are not permitted.

If an MS has already been registered on the network, and has already been authenticated, and cannot be successfully re-authenticated due to network malfunction (e.g. the <B> was not able to provide authentication pairs RAND, SRES), the Parties agree that calls are not permitted and that the <B> will not receive any charges.
